Dear Malcolm Edward Allen

Re: Notification of Council inspections on On-Site Sewage Management System Lot 208 DP 2147 , 208 Sixth Avenue Llandilo NSW 2747

Due to changes in legislation Council now requires that all on-site sewage management systems have an approval to operate. Council Officer's assess the level of risk your on-site sewage management system poses to public health and the environment. Council Officers have recently inspected your system and have assessed it as being of

Low Risk Classification

In undertaking inspections Council assesses a number of criteria relating to the geology, geography and hydrology of the area in which you live and the potential impacts your system may have on the environment and public health.

Your operational approval is valid until the **02/05/2010** at which time Council will request a reinspection of your system.

The $102 on-site sewage management charge associated with your operational approval will be included in your next Council rates.

Council may change the assigned risk of your OSSM system if improvements are made, or if additional risks are identified in the future. Council may at any time require you to carry out additional works on your system if it is found that it is causing a risk to either the environment or public health.

Should you have any questions relating to this matter, please contact myself on (02) 4732 8082 during normal business hours.

Yours faithfully

AEstreich

Penrith City Council
601 HIGH STREET, PENRITH. PHONE : 4732 7777
PO BOX 60, PENRITH NSW 2751

APPROVAL TO OPERATE A SYSTEM OF SEWAGE MANAGEMENT

LOCAL GOVERNMENT (APPROVALS) REGULATION 1999, PART 4, DIVISION 7 (CLAUSES 44 TO 51)

Approval has been granted to:	**Malcolm Edward Allen**
For the operation of the Sewage Management System installed at:	**Lot 208 DP 2147** **208 Sixth Avenue Llandilo NSW 2747**
System type :	
Approval Issue Date: 2/05/2005	
Expiry Date of this Approval : 02/05/2010	

THIS APPROVAL IS SUBJECT TO THE FOLLOWING CONDITIONS :

1 This approval extends to concurrent owners and occupiers of the premises where the system is installed.

2 If the owner of the premises changes during an existing approval, the new resident may operate the system for 3 months without obtaining further approval to operate the system. If the person duly applies for an approval within the period of 2 months after the date that the land is transferred or otherwise conveyed, the person may continue to operate the system until the application is finally determined.

OPERATION

3 The system must be operated so as to allow the removal of any treated sewage or by-product of sewage in a safe and sanitary manner.

4 The system must be maintained in a sanitary condition and be operated in accordance with the relevant requirements of clause 47 of the Local Government (Approvals) Regulation 1999 and guidelines made thereunder.

5 The sewage management system must be properly maintained in accordance with clause 48(2) of the Local Government (Approvals) Regulation 1999.

6 The system must be operated and maintained in accordance with the relevant operating specifications and procedures for the component facilities, and so as to allow removal of treated sewage in a safe and sanitary manner.

7 A sewage management facility used in the operation of the system must not discharge into any watercourse or onto land other than its related effluent application area. All effluent from the system must be disposed of within the confines of the property.

8 The conditions of any certificate of accreditation issued by the Director-General of the Department of Health under Division 7 Part 4 of the Local Government (Approvals) Regulation 1999 in respect of the plans or designs for any components of the sewage management facilities must be complied with.

9 Evidence of compliance with the relevant requirements of the Local Government (Approvals) Regulations 1999 and of the conditions of this approval and details of the way in which the system is being operated must be provided to Council within the time specified whenever Council reasonably requires you to do so.

10 The person responsible for the operation of the sewage management system must provide details of operation and evidence of compliance with conditions of the approval whenever the Council reasonably requires the person to do so.

11 The system must be operated to achieve the performance standards as set out in clause 47 of the Local Government (Approvals) Regulation 1999. These are:

i. the prevention of the spread of disease by micro-organisms,
ii. the prevention of the spread of foul odours,
iii. the prevention of the contamination of waters,
iv. the prevention of the degradation of soil and vegetation,
v. the discouragement of insects and vermin,
vi. ensuring that persons do not come into contact with untreated sewage or effluent (whether treated or not) in their ordinary activities on the premises concerned,
vii. the minimisation of any adverse impacts on the amenity of the premises and surrounding lands.
viii. if appropriate, provision for the re-use of resources (including nutrients, organic matter and water).

12 The holder of this approval is responsible for ensuring that the on site system is designed, installed and managed so that pollution of ground water and surface water does not occur and so that there is no risk to public health, safety and the environment from the operation of the system.

13 Under the Local Government Act 1993 and Penrith City Council's Fees and Charges, a charge $102 applies for the inspection and registration of your on-site sewage management system.

REVOCATION OR MODIFICATION

14 Council may revoke or modify this approval for failure to comply with a condition of this approval.

15 Council may conduct inspections of the premises in accordance with sections 191 to 194 of the Local Government Act 1993.

16 Council may revoke this approval should the inspection and registration fee of $102 not be paid within the specified time period.

Yours Faithfully

Adrian Estreich

M E Allen
208 Sixth Avenue
Llandilo NSW 2747

Dear Malcolm Edward Allen

Re: On Site Sewage Management System
OSSM0054/05
Lot 208 DP 2147 , 208 Sixth Avenue Llandilo NSW 2747

Under section 68 of the Local Government Act 1993 all landowners are now required to obtain approval for the operation of On-Site Sewage Management (OSSM) Systems. Council now requires that all on-site sewage management systems have an approval licence to operate.

In order for Council to issue licences for OSSM systems an inspection carried out by a Council Officer must take place. In undertaking inspections Council assesses a number of criteria relating to the geology, geography and hydrology of the area in which your property is situated, and the potential impacts your system may have on the environment and public health.

Council recently wrote to you requesting that you organise a suitable time for an inspection on your on-site sewage management system. As you have not yet organised an inspection time, you are once again requested to contact Council within the next fourteen (14) days to arrange an appropriate inspection time for your OSSM system.

Please note that further action may be taken against you if you continue to operate your OSSM system without an approved licence. This may include an on the spot fine of $330 for operating an on site sewage management system without an approval.

If you wish to discuss this matter, please contact me on (02) 4732 8082.

Yours faithfully

Vanessa Lee
Health and Environment Unit

208 Sixth Avenue
Llandilo NSW 2747

Dear Malcolm Edward Allen

Re: Notification of Council inspections on On Site Sewage Management System
Lot 208 DP 2147 , 208 Sixth Avenue Llandilo NSW 2747

Sometime ago Council wrote to homeowners advising of changes in State legislation which now require all on site sewage management systems to be issued with an operational approval. Council's Environmental Health Officers will be inspecting the following street over the next few weeks.

Sixth Avenue

You are requested to contact the inspection officer within fourteen (14) days to organise a convenient inspection time.

A charge of $102 applies for the inspection and registration of your OSSM system. Once the Environmental Health Officer has carried out the assessment on your system an operational approval will be issued, with the charge being included in your Council Rates.

Please note that failure to allow a Council Environmental Health Officer to conduct an inspection of your on site sewage management system or failure to pay the inspection and registration fee may result in an on the spot fine of $330.

Should you have any questions relating to this matter, please contact myself on (02) 4732 8082

Yours faithfully

Llandilo NSW 2747

Dear Malcolm E Allen

Notification of Council's Inspections on On-Site Sewage Management Systems
Lot 208 DP 2147208 Sixth Avenue
Llandilo NSW 2747

Sometime ago Council wrote to homeowners advising of changes in State legislation which now requires all on site sewage management systems to be issued with an operational approval. Council's Environmental Health Officers will be inspecting the following area in the next three (3) months:

Llandilo

Inspections will be conducted on a street by street basis. Over the next three (3) months you will be sent notification of when inspections will be conducted in your street. You will be requested to contact the inspecting officer within fourteen (14) days to organise a convenient inspection time.

A charge of $102 applies for the inspection and registration of your OSSM system. Once the Environmental Health Officer has carried out the assessment on your system an operational approval will be issued, with the charge being included in your Council rates.

Enclosed with this letter you will find an educational brochure, which has been developed as a part of Council's On Site Sewage Management Strategy. This education brochure has been designed by Council to help homeowners understand how an on site sewage management system works and how homeowners can look after their system to minimise the potential risk to the environment and public health.

Please note that failure to allow a Council Environmental Health Officer to conduct an inspection on your on site sewage management system or failure to pay the inspection and registration charge may result in an on-the-spot fine of $330.

Should you have any questions relating to this matter, please contact Council's on-site sewage management officers on (02) 4732 7912 between 8:30am and 10:00am Monday to Friday.

29th January 2004

Malcolm Allen
Lot 208 Sixth Avenue
LLANDILO NSW 2747

Dear Mr Allen

Approval to Burn
Address – Lot 208 Sixth Avenue, Llandilo.

Approval is given for the burning of dead vegetation or seasoned dry timber, at the above property.

This approval relates to the material inspected by the Rural Fire Service on 28th January 2004 2003, and is subject to the following conditions:

- **Please approach the Rural Fire Service, Ph: (02) 4734 7777, to obtain a fire permit. ALL FIRES WITHOUT PERMITS ARE ILLEGAL.**
- Unless otherwise specified the Brigade need to conduct the burn.
- You are required to notify the occupiers of all adjoining properties at least 24 hours prior to commencement of burning. This notification may be made either verbally or in writing
- The Rural Fire Service Fire Control Centre must be advised at least one hour prior to commencement of burning. This notification may be made by ringing telephone number (02) 4731 7777.
- A water supply is to be available to the fire at all times and is to comprise of a hose attached to a continuous water supply of sufficient pressure to control any break-out of fire around the burning pile(s)
- An adult person must supervise the fire at all times while the fire is burning

In the event of a No Burn weekend or a Total Fire Ban, this approval is suspended until the No Burn or Total Fire Ban is lifted.

Information relating to a No Burn or Total Fire Ban may be obtained by ringing the Rural Fire Service Fire Control Centre on (02) 4734 7777. Media announcements may also advertise No Burn and Total Fire Ban information.

The burning of rubbish, other than that to which this approval relates, is prohibited.

FILE

Offences committed in relation to prohibited burning may be subject to fines and prosecution under the Protection of the Environment Operations Act 1997.In particular, your attention is drawn to Part 2, Clause 6 (3) of the Act which prohibits the burning of tyres, coated wires, paint containers and residue, solvent containers and residue and timber treated with chromium arsenate or pentachlorophenol.

If you require any further information, please contact the Rural Fire Service (Fire Control Centre) on telephone number (02) 4734 7777.

Yours sincerely,

Kelly Connor

Tree Pruning/ Removal Inspection Request Form

A Tree Preservation Order applies to the whole of the Penrith City Council area to ensure the long-term landscape character of the area. This prohibits the ring barking, cutting down, topping, lopping, pruning, removing, injuring or willful destruction of any tree having a height greater than 3 metres, with a trunk circumference exceeding 0.3 metres, taken from a point 0.4 metres above ground level except with the written consent of Council. Any person who contravenes or causes/permits to be contravened, the provisions of the TPO, shall be guilty of an offence and liable to prosecution in the Local or Land and Environmental Courts. It is anticipated that the applicant or agent will not be at the property when Council's officer inspects the tree/s listed below therefore it is important that the relevant tree is clearly identified (ie if identification is not possible tie a ribbon or string around the tree/s).
