THE GOVERNMENT OF THE REPUBLIC OF INDIA

Return of Nationals in an Irregular Situation

General provisions

1. The Participants will work together constructively on returns arrangements that will support the overall migration partnership. This will include deepening cooperation and the exchange of best practice, and working cooperatively to identify and address operational, legal or policy obstacles to improve returns cooperation.
2. Each Participant will admit to its territory, at the request of the other Participant, any national of the Participant who has no lawful basis to be in the territory of the other Participant, where it is conclusively verified that the person is a national of their country, in accordance with the Participants' applicable domestic laws, regulations, policies and international obligations.
3. Both Participants will promote the voluntary returns of the nationals of the other Participant who are unlawfully staying in the territory of the other Participant and are subject to return.
4. If the person irregularly staying in the territory of one Participant refuses voluntary return, the Requesting Participant, in accordance with applicable laws, will resort to forced returns on a case-by-case basis after verification of the nationality of the person by the Requested Participant, except in the case where the potential returnee is in possession of a valid passport. In these cases, the Participant effecting the return will inform relevant authorities of the Receiving Participant in advance of the involuntary return.
5. In cases where a new travel document is required to facilitate a return, the Participants will complete the process of verification of a national's identity and subsequent issuing of any travel document in a timeframe that is swift and reasonable, taking account of the individual circumstances in each case. The Participants will work together to enable identity and nationality verification where the evidence submitted needs further enhancing, including through the use of biometric data and identity interviews wherever possible and where reasonably practicable and consistent with their applicable domestic laws, regulations, policies and international obligations.

Returns – Process of Request of re-admission - Verification of Identity

6. In order to verify the nationality of a person being returned who is unlawfully in either Participant's territory, the requesting Participant will submit evidence that will include a copy of the person's passport where one is available.
7. In such cases, the requested Participant will use best endeavours to communicate if the nationality of the person is conclusively established to its satisfaction within a swift and reasonable timeframe.

8. In cases where a passport copy is not available, a combination of other identity documents such as those listed in paragraph 18 may be used to verify the nationality of the person as soon as reasonably practicable.
9. In the absence of any of the documentation listed in paragraph 18 to support the identity verification process, the requested Participant will take all reasonable steps to confirm the nationality of the person being returned through alternative means, including through the use of biometric data and/or information collected through identity verification interviews wherever possible and where reasonably practicable and consistent with the Participant's applicable domestic laws, regulations, policies and international obligations.
10. Where the requested Participant is unable to verify the nationality of a person and does not accept a request for repatriation on this basis, it will share the relevant reasons with the requesting Participant. The decision of the requested Participant is final, but it may decide to consider any reasonable request to review its decision, where the requesting Participant has new evidence or considers there has been a misunderstanding of the evidence.

Issuance of Indian Travel Documents where re-admission is accepted

11. Where India has verified the Indian nationality and right of re-entry of a person on Australia's request, it will issue an Emergency Travel Document (ETD) within five working days.
12. ETDs issued by India under this Arrangement will be valid for six months and Australia will take all reasonable steps to return the person using the ETD provided, before its expiry. If that is not possible due to reasons beyond the immediate control of Australian implementing authorities, such as fresh legal proceedings, refusal to comply or absconding, India will issue a new ETD, provided there is no reason to suppose that the circumstances of the person have changed.

Miscellaneous provisions

13. Where Australia has evidence that an Indian national is unlawfully present in Australia, and is the parent of a minor child born in Australia but whose birth has not been registered with the relevant Indian diplomatic mission, India will accept an Australian birth certificate as evidence for securing an ETD for the child only if the nationality of both the parents as Indian nationals and their relationship with the child is conclusively established. Any action under this provision would be without prejudice to any legal option available to the child or to its parents. Minor child means a child who has not attained the age of 18 years on the date of submission of the request by the Requesting Participant.
14. The Participants will work cooperatively to facilitate returns either through scheduled or non-scheduled flights, when requested by either Participant.
15. The requesting Participant will cover the costs associated with the return.
16. The Participants will issue necessary visas to persons required to escort persons subject to a return to either Australia or India within a swift and reasonable period of time, subject to relevant domestic laws.
