NT Agencies and NIAA are working closely - meeting regularly to monitor the immediate response and longer term system reform to bring real change to these issues. Importantly, we are working closely with Traditional Owners and Community Leaders to have a local led response to the ongoing issues which are complex and will take time to move.

Police have provided permission for the data below to be used.

Thanks

Bridgette sorry for the delay.

The statistics for the last 4 days are below. I have not particularised every offence type but highlighted the incident types that generally give rise to a perception of anti social behaviour and are linked to youth/drunks. Weekly and monthly there are small fluctuations in Youth disturbances, Burgs and disturbance general but all in all things are continuing to trend downwards.

May saw our total reported/recorded incidents hit a record 4 year low and June followed the same pattern. Total reported/recorded incidents is everything inclusive of reported crime, reported matters that don't turn out to be crime such as (general disturbance or drunks) and Police pro Active recorded incidents such as a licensed premises check or a Hot Spot patrol. Our Pro active work has increased to about 30% now of all reported/recorded incidents. So with pro active work increasing and total Reported/recorded incidents reducing, there is a significant reduction from calls from the public.

We are continuing to be very active in ensuring other agencies are continuing to keep focussed on the Core group who continue to come to our attention.

27th to 28th – Thursday into Friday

Subject: Alice Springs

Sorry for the delay.

Over the weekend from Friday morning until 0600 this morning (Tuesday) we had 22 Unlawful entries (Burglary) within the Alice Springs area.

7 of these were residential premises and half of those were opportunistic crimes where residence were entered through unlocked doors.

15 burglaries were commercial premises . there appears to be two separate crime series involving youth and a number in town not involving youth, one being the

Series South of the gap, with 5 commercial premises at the airport subject to Burglaries and Old Timers village where a vehicle was stolen and later located.

The remainder were various commercial premises within town and appear linked.

Two adult offenders were apprehended after attempting to break into Flynn Drive IGA. They were in a SMV from one of the earlier commercial burglaries.

There was a noticeable increase in jobs Monday leading into Tuesday with the availability of takeaway alcohol due to the public holiday trading. Normally this is our quietest day but we saw 188 incidents reported over that 24 hr period till 0600 this morning.

14 DV incidents
3 youth disturbance
4 Burglary
4 Arrests

Sunday into Monday saw:

142 total incidents:

11 DV
5 Youth Disturbance
8 Burglary
2 Arrests

Saturday into Sunday saw:

172 total incidents:

22 DV
1 youth Disturbance
5 Burglary
7 Arrests

Friday into Saturday saw:

195 Total Incidents:

19 DV
3 Youth Disturbance
5 Burglary
10 Arrests

Last week we had a total of 42 Burglaries across town. It is higher than we have seen for a while. Strikeforce Viper are investigating and it appears that this is particularly linked to a recidivist youth offender who can be linked to a majority of

the offending.

The first site to proceed is the Kurrajong site in the Kimberley region due that site being most progressed through community engagement, SSA were still working out the site with community for the North East Arnhem school (Dhupuma school) which had not settled with community.

As mentioned, any further investment from Government towards additional schools would be subject to a future budget process, and s47C
