Dear South Asia region colleagues,

Following the Partner planning meetings held over the past month, Partner Program Management and Delivery Support are now seeking to finalise preliminary Partner targets for each region.

The table below provides the preliminary 2023-24 South Asia region first stage Partner targets. While noting this includes a proposed breakdown of the South Asia region target by office, the office targets are estimates based on 2022-23 delivery and we are agnostic as to how the overall South Asia region target is distributed between offices depending on staffing levels, other delivery priorities, etc.

We would be grateful if you can consider the proposed targets and provide a consolidated response as a region in relation to the overall target, to confirm that the target is acceptable, or advise if there are any concerns/other feedback in relation to any of the targets. This will enable the onshore Partner Program Management and Partner Delivery teams to make any necessary adjustments if necessary and finalise the preliminary 2023-24 targets across all regions globally, for our ongoing monitoring and progress reporting requirements. If you have any comments and/or suggestions regarding the 2023-24 targets, please feel free to raise it directly with us or at our first Partner program CoP in 2023-24 which will be held next week. An invitation to the CoPs will be sent out shortly.

As always, Posts can contact Partner Program Management and Delivery Support at any time to discuss any delivery issues, allocation/transfer requests, training or other support required.
