### Question

In addition, you have previously reported VET FEE-HELP student enrolment data yet I am unable to locate any such information for the 2016 year. Can you also please provide this?

### Answer

For the first-half of 2016 (unit census dates between 1 Jan 2016 and 30 Jun 2016) there were 149,237 course enrolments for VET FEE-HELP students. This is the verified half-year value which includes Certificate IV enrolments, and excludes enrolments associated with remitted and invalidated debt.
