Request

I'd like to request the following documents under the FOI Act:

- Regarding Airservices' document s 47G
 - o All documents which show analysis of community feedback, assessment of options, recommendations and reasons for the decision
 - o All email and written correspondence which refers to the review
- Items from the Minutes of all meetings of the Airservices Board of Management which refer to implementation and review of the s 47G
- Documentation of Airservices Australia's policy and procedures to assure compliance with the Environment Protection, Biodiversity and Conservation Act 1999 and the Commonwealth Department of Environment and Energy's policy guideline Actions on, or impacting upon, Commonwealth land, and actions by Commonwealth agencies: Significant Impact Guidelines 1.2
- Document which authorises implementation of the s 47G by the relevant decision-maker, including the date of decision

- Regarding the removal and subsequent reinstatement of the VOR navigation beacon at s47G Airport during 2017:
 - o All documentation, emails and written correspondence which refers to removal and subsequent reinstatement of this beacon
 - o All documentation, emails and written correspondence which refers to the upgrade to this beacon to bring it into line with modern standards

"a record of the landings for s47F during the period 1 July 2011 to the 30 November 2013".

I seek access to all OneSKY Australia project-related correspondence between Air Services Australia and the s47G from this financial year that goes to:

- The project schedule
- The system's initial and final operational capability date (IOC and FOC)
- Updated project costs or cost variances
- Details of common hardware and software usage between the military and civilian elements of the system, and any changes to plans in this regard."

Revised :

"1. From this Financial Year, correspondence related to project schedule, initial and final operating capability dates, costs or cost variances, and common hardware and software usage between military and civilian elements of the system, and any changes to plans in this regard, between:

- OneSKY Program Executive (OPE) and Defence Project Director (DPD)
- Airservices CEO and Defence Counterparts
- Airservices Lead Negotiator and Defence Counterparts

2. The Initial and Final operational capability dates (IOC and FOC) as agreed with the Contractor".

change from the traditional left hand circuit to the right hand circuit. This happened 1995 and 1996 resulting in a agreement to protect the residents that all circuit are too and from a seaward direction.

Please include correspondence with the s 47G

"Any finalised reports relating to public relations or stakeholder management in relation to PFAS contamination at any airport in Australia."

"Any finalised reports relating to exposure of Airservices staff to PFAS at Australian Airports".

"Any finalised reports relating to exposure of Airservices staff to PFAS at Australian Airports".

may I please request a copy of the recently signed Labour Agreement between AirServices Australia and [redacted] regarding the s 47G [redacted]

For fire incidents that occurred at airports between January 2011 to December 2015, a list including the individual:

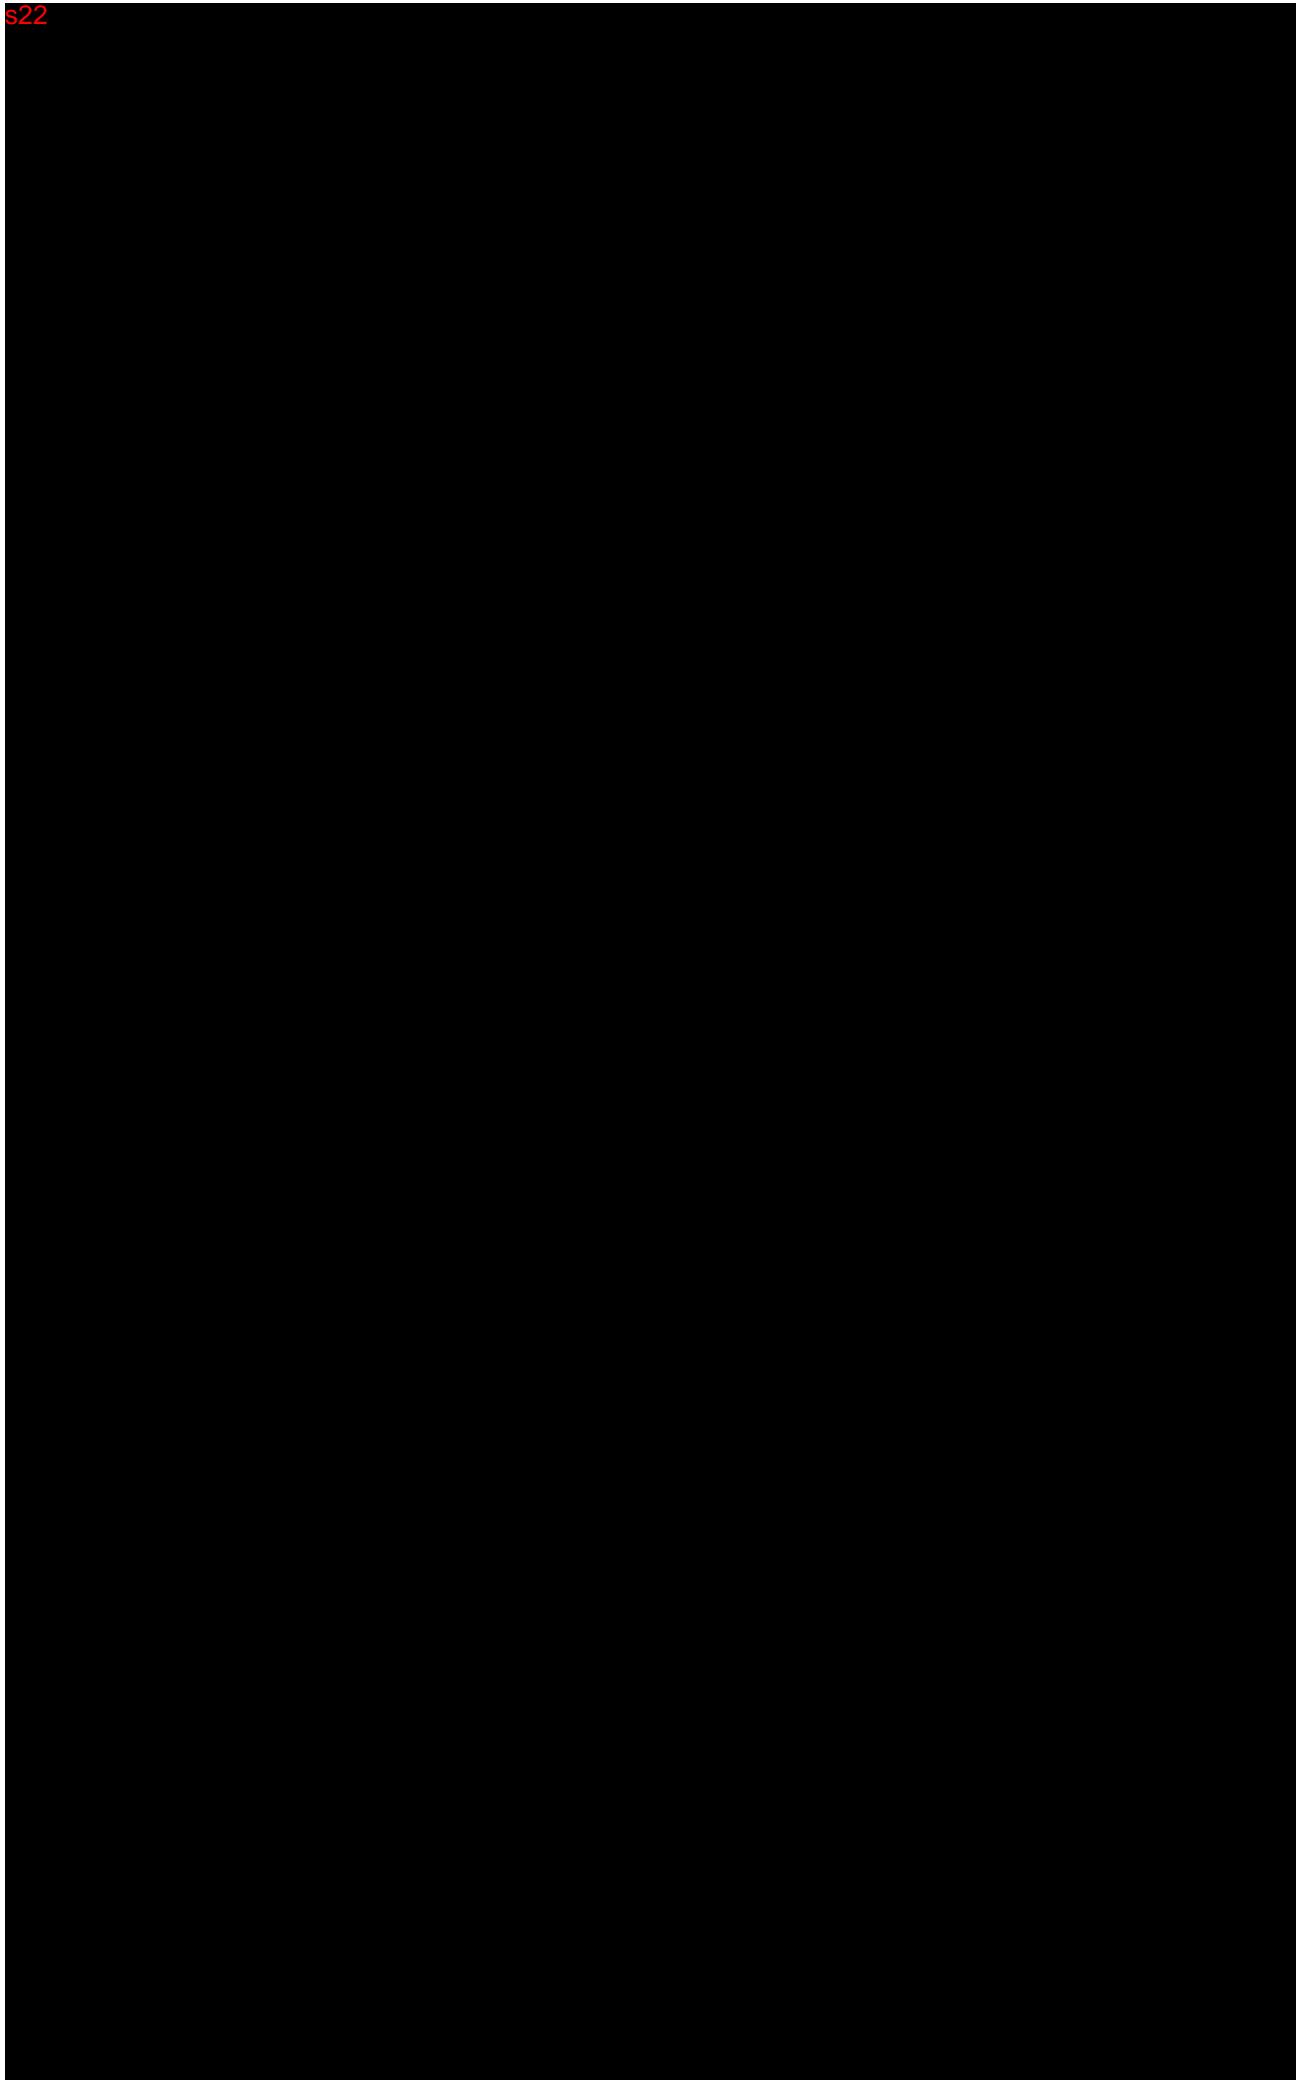

- Date
- Address or longitude/latitude
- Incident Type

I'd like to request the following documents under the Freedom of Information Act:

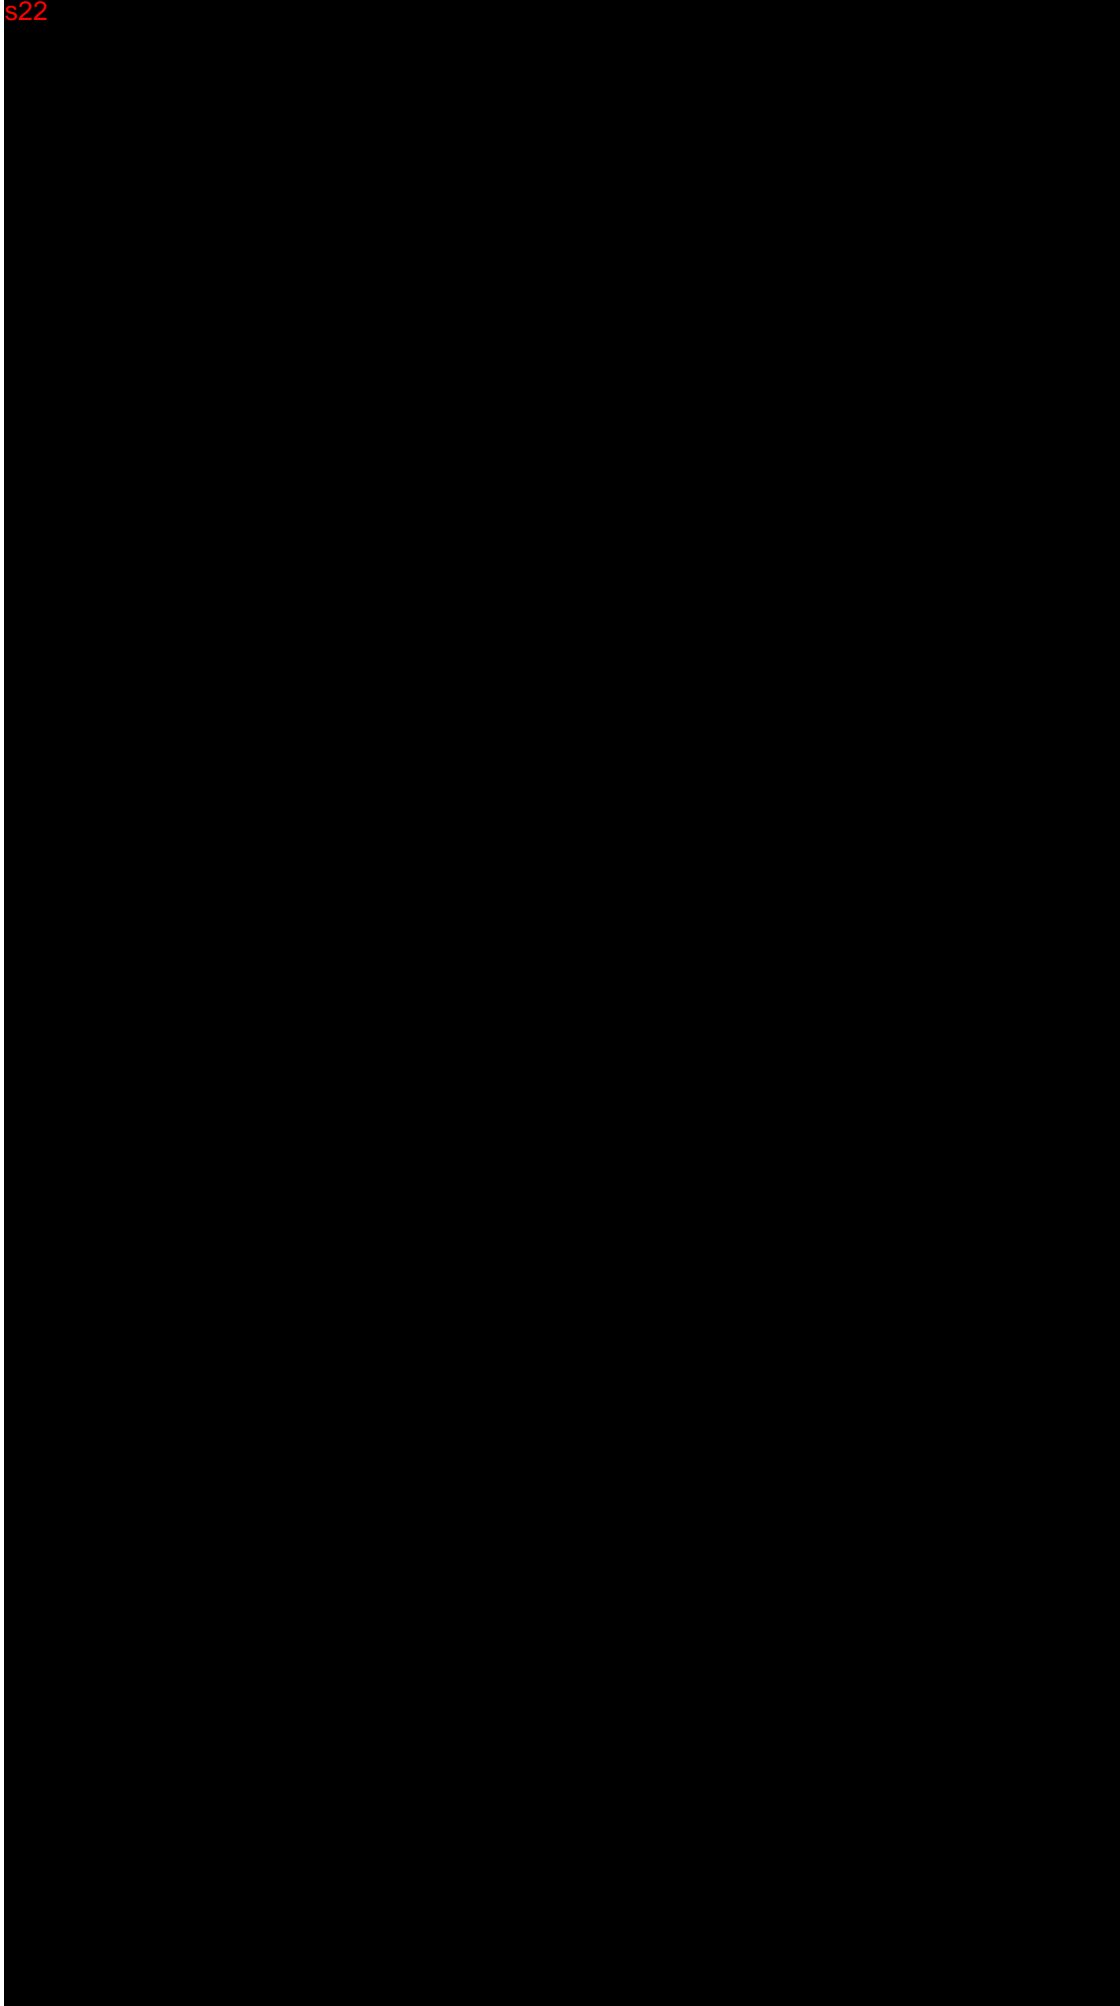

- All reports of safety-related incidents which have occurred within 100 km of s47G Airport between the period 14 September 2016 to 14 February 2018 (inclusive)
- All documents and internal correspondence which assess, review or refer to matters which affect the safety of the s47G SIDs and STARS subsequent to their introduction on 14 September 2017

"Copy of the training manual and standard operating procedures for staff that use the hf radio oceanic services"
