Business Profile

Fixed Premises

Q1. Number of fixed premises food businesses categorised as high risk? *

21

'High risk' typically means businesses which:

- handled and served ready-to-eat foods that may contain pathogenic microorganisms and support their growth, and
- also had known risk-increasing factors such as:
 - potential for inadequate/incorrect temperature control (reheated or hot-held food),
 - larger scale of operations (employed more than 10 people),
 - large catering operations (different preparation and serving location), and/or
 - supplied directly to at-risk customers (child care centres; nursing home caterers).

High risk businesses require at least one programmed inspection per year.

Q2. Number of fixed premises food businesses categorised as medium risk? *

30

'Medium risk' typically means businesses which:

- handled (ind. cooked, thawed) foods that may contain pathogenic microorganisms and support their growth
- served ready-to-eat foods that may contain pathogenic microorganisms but not generally support growth, or unlikely to contain pathogenic microorganisms but may support growth if present
- served high- and medium-risk, ready-to-eat foods only portioned before receipt by the customer
- were small or medium scale of operations (less than 10 people), and/or
- were small or medium scale catering.

Medium risk businesses require at least one programmed inspection per year.

US.	number o	i iixea brei	mises 100	u businesses	cateuoriseu	as low risk:	•

5

'Low risk' typically means businesses which:

- served foods unlikely to contain pathogenic microorganisms and unlikely to support growth if present
- · served pre-packed food only, or
- supplied foods that are not ready-to-eat.

Low risk businesses should be inspected in response to incident or complaint only.

Examples:

Bars selling packaged crisps only; confectionery stores; liquor shops; newsagents selling packaged low risk foods.

Total Number of Fixed Premises

56

Temporary Premises

Q4. Number of temporary food premises that operated in the council area? *

1

'Temporary food businesses': food stalls and facilities which handled, prepared and sold food at periodic markets, fairs, festivals, shows and non-mobile temporary facilities such as fruit stalls. The same stall present at repeated regular events should be counted as 1.

Exclude: mobile food businesses such as vans, food trucks & coffee carts.

Mobile Premises

Q5. Number of mobile food premises that operated in the council area? *

2

'Mobile food premises': food premises which handled, prepared and sold food, were designed to be movable from place to place (whether motorised or not) and were self-contained with its own hand wash basin, equipment and consistent operating conditions.

Exclude: temporary, non-mobile facilities such as market stalls.

Examples:

Coffee carts, juice carts, food trucks, mobile facilities for hamburgers, hot dogs, kebabs, commercial spits, BBQs grills, popcorn, icecream, fairy floss.

Retail sector requirements

Q8. Number of 'standard fo	od outlets' (Fast Choices)? *
0	

Resources

Resources

Q11	l. Number	of	authorised	officers	engaged	in food	regulatory	work over the	12	month
rep	orting pe	rio	d? *							

2

This is the total number of people (head count) appointed as authorised officers under the Food Act 2003 that have conducted any food regulatory work in the reporting year. This is regardless of whether they are full time, part time, consultants or responsible for other work as well. The response must be an integer.

Example:

A council with 1 full time authorised officer, plus 2 authorised officers who work on food part-time for 25% of their time plus 1 contractor appointed as an authorised officer working 25% of their time on food would answer 4. A separate person appointed as an authorised officer who did not perform any food regulatory work in the year is not counted.

Q12. Number of full time equivalent (FTE) authorised officers to fulfil food regulatory duties? \ast

.5

'FTE': the number of authorised officers required to undertake council's level of food work (as per previous question) if they had worked full time on food.

Example:

A council with 1 full time authorised officer who works only on food (1 FTE), plus 2 authorised officers who work on food part-time for 25% of their time (2 x 0.25 FTE = 0.5 FTE), plus 1 contractor appointed as an authorised officer who works 25% of their time on food (0.25 FTE) would answer 1.75.

Surveillance Activity

Number of Inspections

Q13. Number of primary insp	pections conducted for fixed food premises? *
51	

Primary inspections: total number of inspections of fixed premises which were programmed and completed.

Exclude re-inspections for unsatisfactory issues, and inspections of mobile and temporary premises.

Example:

If a council inspects 50 high risk fixed businesses twice per year and 25 medium risk fixed businesses once per year, all of which are completed, then the answer is 125.

Q14. Number of primary inspections conducted for temporary food premises? *

'Primary inspections': inspections of temporary premises which were programmed and completed.

Exclude re-inspections for unsatisfactory issues, and inspections of fixed and mobile premises.

Q15. Number of primary inspections conducted for mobile food premises? *

'Primary inspections': inspections of mobile premises which were programmed and completed.

Exclude re-inspections for unsatisfactory issues, and inspections of fixed and temporary premises.

Example:

If a festival in a council area had 2 mobile coffee carts and inspected them both, and the council has 7 regular mobile food businesses selling ice cream, sandwiches, coffee and hot pies and completes inspections of them all, the answer is 9. Temporary food stalls at the festival should not be counted.

Number of Businesses

Q16. Number of high and medium risk, fixed premises food businesses inspected? *
51
'Fixed premises businesses': include the number of all high and medium risk fixed premises that were inspected.
Exclude multiple visits to the same business, any visit to low risk fixed premises and all mobile and temporary premises inspected.
Example:
If a council inspects 50 high risk fixed businesses twice per year and 25 medium risk fixed businesses once per year, all of which are completed, then the answer is 75.
Q17. Number of these fixed premises food businesses requiring re-inspection? *
4
'Re-inspection': Fixed premises which required follow-up to a primary inspection due to significant breaches or possible enforcement action.
'Significant breaches': those which pose a food safety risk or are matters which cannot be left until the next routine inspection.
Do not count premises where matters are left to the next routine inspection, the officer 'pops in' to check on a minor issue or if council routinely re-visits for minor issues with no enforcement action taken.
Examples:
Re-inspections due to hand washing, temperature control, cross contamination, pest control, inadequate cleaning and sanitation, sale of food past 'use by' dates and maintenance issues that pose a food safety risk.
Q18. Number of these fixed premises food businesses requiring additional reinspection(s)? *
2
'Additional re-inspection': Fixed premises requiring further follow-up after a first re-inspection.

Example:

A premises found at primary inspection to have evidence of inadequate cleaning of surfaces and equipment and at re-inspection is found to have not addressed the issues, requiring a further reinspection the next day would count as 1.
