

- It should also be noted that our Web Services Team was required to work on both New Years Eve (a public holiday for all staff) and New Years Day (a national public holiday) to ensure that the name change was reflected on our website as of 1 January 2013.
- In terms of costs of using external agencies we have only incurred one cost currently which was for artwork and rebranding which was for \$2,100+ GST.
- Further costs will arise with the replacement of the current signage and stationery but we do not currently have these. These are being quoted with a view to undertaking this work by the end of February into early March.
