UNDERGROUND POWER PROJECT – ATTADALE SOUTH

The City of Melville recently undertook a survey of property owners in Attadale to determine the level of support for underground power within the project area known as Attadale South.

The City of Melville is pleased to announce that the results of that survey indicate that 82% of respondents supported the underground power project in principle and 74% of respondents were in favour of the proposal and prepared to contribute financially to the project.

Based on the results of the survey the Council and Western Power have decided to progress the design of the project with a proposal to commence works around mid 2010.

The City of Melville and Western Power will be undertaking consultation with property owners who live in the immediate vicinity of proposed transformer locations and switchgear cabinets.

Should you have any queries on the Attadale South Underground Power project please contact City of Melville - Roy Bailey on 9364 0674, email roy.bailey@melville.wa.gov.au; Western Power - Tony Moore or Stephen Phelan-Hollatz on 9219 2004.

Yours sincerely

**RUSSELL AUBREY
MAYOR**
