Dear «Salutation»

ATTADALE SOUTH UNDERGROUND POWER PROJECT
PROPERTY ADDRESS: «PROP_Addr1»«PROP_Addr2»

This letter is a follow up reminder to a correspondence sent to you in December 2009 from the City of Melville advising you of the Western Power proposal to install a transformer or switchgear cabinet near your property **as part of the Attadale South Underground Power Project**. Enclosed with that letter was a photo of the site depicting how and approximately where the equipment will be placed.

The consultation period runs through until Monday 15 February 2010 (please note the incorrect date Monday 14 February in the previous letter). As stated in the previous letter you are invited to view the display of the proposed locations for the transformer and switchgear cabinets. The display is located in the foyer of the City of Melville offices at Almondbury Road Booragoon.

Should you require any further information on this please contact either:

Western Power – Tony Moore
City of Melville – Roy Bailey

9219 2012 or tony.moore@westernpower.com.au
9364 0674 or roy.bailey@melville.wa.gov.au

The City encourages you to view the display and provide any comments you may have by Monday 15 February 2010. After consideration of the comments by the City of Melville and Western Power **and consultation with those property owners**, the final equipment locations will be confirmed.

Yours sincerely

JOHN CAMERON
EXECUTIVE ENGINEER DESIGN

The State Underground Power Program in Attadale South is a partnership between the Government of Western Australia (through the Office of Energy), Western Power and the City of Melville, to improve residential amenity and security of power supply.
