Dear Mr Warren

I refer to your request under the *Freedom of Information Act 1982* (the FOI Act) which we received on 10 July 2020.

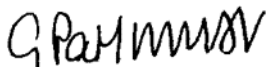

The FOI Act permits an agency to transfer all or part of a request to another agency if the request relates to documents that the other agency has (and the agency that received the request does not), or documents that relate more closely to the other agency. The Ombudsman's office commonly transfers requests and part-requests that cover documents provided to the office by another agency and which reflect the work of that agency rather than that of the Ombudsman's office.

In relation to your FOI request, I have decided under s 16 of the FOI Act to transfer your request to Services Australia. That agency is now responsible for processing your FOI request. If you wish to contact Services Australia about your request, you may do so by e-mail to freedomofinformation@servicesaustralia.gov.au

or post to
