FOI Request: FA 20/09/00748

File Number: OBJ2020/29793

Dear Pesh

Freedom of Information (FOI) request - Access Decision

On 16 September 2020, the Department of Home Affairs (the Department) received a request for access to document under the *Freedom of Information Act 1982* (the FOI Act).

The purpose of this letter is to provide you with a decision on your request for access under the FOI Act.

1 Scope of request

You have requested access to the following document:

1) Visa applications Granted for subclass 189 (points tested) by activity month for the months of July 2020 until 16th September 2020.

2) Visa applications Granted for subclass 189 (points tested) by activity month for the months of July 2020 until 16th September 2020, for offshore and onshore clients respectively.

3) Visa applications Onhand for subclass 189 (points tested), as at snapshot date 16th September 2020.

4) Visa applications Onhand for subclass 189 (points tested) client location in Australia, and for client location outside Australia, as at 16th September 2020.

5) Number of Case officers allocated for visa subclass 189 (points tested) processing.

2 Authority to make decision

I am an officer authorised under section 23 of the FOI Act to make decisions in respect of requests to access document or to amend or annotate records.

3 Relevant material

In reaching my decision I referred to the following:

- the terms of your request
- the document relevant to the request
- the FOI Act
- Guidelines published by the Office of the Information Commissioner under section 93A of the FOI Act (the FOI Guidelines)
- advice from Departmental officers with responsibility for matters relating to the document to which you sought access

4 Document in scope of request

In accordance with section 17 of the FOI Act, the Department has used its computer system to produce one document that contains information that falls within the scope of your request. The data produced in the document existed in the possession of the Department on 16 September 2020 when your FOI request was received.

The Department has undertaken reasonable searches in relation to the data you have requested access to.

The Department does not hold an existing discrete document that contains the Number of Case officers allocated for visa subclass 189 (points tested) processing.

The Department has considered whether it can extract the data in accordance with section 17(1) of the FOI Act.

The obligation for retrieving or collating information stored in a computer system arises if:

- the Department could produce a written document containing the information using a computer or other equipment that is ordinarily available to the agency for retrieving or collating stored information, and
- producing a written document would not substantially and unreasonably divert the resources of the agency from its other operations (s17(2))

In *Collection Point Pty Ltd v Commissioner of Taxation* the full bench of the Federal Court decided that if a new computer program is required to be written to produce the document then a computer is not being used in a manner that is ordinarily available to the agency because an extraordinary step is required to be taken¹.

To compile the information you have requested into a discrete document would require a manual search of each relevant individual records and manual collation of the results. This is not what section 17 of the FOI Act requires. Section 17 only requires a new document to be created when it is possible to do so using a computer or other equipment to extract data. It is not possible to generate a document containing the information you have requested.

¹ *Collection Point Pty Ltd v Commissioner of Taxation* [2013] FCAFC 67 [20].

The data you have requested is of a detail that cannot be reported on from the Department's computer systems. Either the data is not collected to that granular detail, or it is not possible to extract the data using a computer system in a manner that is ordinarily available to it.

I am satisfied that the Department is not able to produce a written document containing the information you seek in a discrete form using a computer or other equipment ordinarily available to it.

Having regard to your request and the types of document that may fall within the scope of your request I am satisfied that the searches conducted were extremely thorough and all reasonable steps have been taken to locate any document relevant to your request.

5 Decision

Section 24A of the FOI Act provides that the Department may refuse a request for access to a document if all reasonable steps have been taken to find the document and the Department is satisfied that the document does not exist.

I am satisfied that the Department has undertaken reasonable searches in relation to part 5 of your request and that no documents were in the possession of the Department on 16 September 2020 when your FOI request was received. As such, I am refusing part 5 of your request based on the application of section 24A of the FOI Act.

The decision in relation to the data in the possession of the Department which fall within the scope of part 1-4 of your request is as follows:

- Release one document in full
