Assisted by John Holland, ABCC Inspectors position themselves in the lunchrooms. Designed to intimidate the plasterers who have already been through so much. Not one person chose to speak to them, so they'll be back with a bigger gang tomorrow.
Your Federal Liberal governmental at work. What a disgrace!

ABCC round 2 at RHH. More inspectors today interrogated plasterer employees, surely these workers have had enough without this! They said it will continue tomorrow. Intimidation!

Section 11C(1) you should post there business cards that they left for the workers, that way there would be no reason for them to be in the sheds and anyone who felt the need to chat to them could 👍 1

ABCC Inspectors turn up after everything is fixed! No surprise that they've got no mates!

The ABCC is running a protection racket for John Holland & the MBA. In breach of their own code, they have charged \$140 to 1150 workers to access a worksite in Hobart. That's \$161,000 of worker's money stolen!
