FOI Request: FA 21/06/01076

File Number: OBJ2021/18614

Dear John

**Freedom of Information (FOI) request - Access Decision**

On 19 June 2021, the Department of Home Affairs (the Department) received a request for access to document under the *Freedom of Information Act 1982* (the FOI Act).

The purpose of this letter is to provide you with a decision on your request for access under the FOI Act.

**1 Scope of request**

You have requested access to the following document:

*Data on the number of 407 Training Visa applications submitted and granted for the period July 2020- June 2021 in Victoria. Specifically 407 visa granted for Motor Mechanic.*

**2 Authority to make decision**

I am an officer authorised under section 23 of the FOI Act to make decisions in respect of requests to access document or to amend or annotate records.

**3 Relevant material**

In reaching my decision I referred to the following:

- the terms of your request
- the document relevant to the request
- the FOI Act
- Guidelines published by the Office of the Information Commissioner under section 93A of the FOI Act (the FOI Guidelines)
- advice from Departmental officers with responsibility for matters relating to the document to which you sought access

#### **4 Document in scope of request**

In relation to part 1(a) of the request regarding the number of subclass 407 visa applications, the Department has used its computer system to produce one document that contains information that falls within the scope of your request in accordance with section 17 of the FOI Act. The data produced in the document existed in the possession of the Department on 19 June 2021 when your FOI request was received.

In relation to part 1(b) of the request regarding subclass 407 visa grants, the Department does not hold an existing discrete document that contains the data you are seeking.

The Department has considered whether it can extract the data in accordance with section 17(1) of the FOI Act.

The obligation for retrieving or collating information stored in a computer system arises if:

- the Department could produce a written document containing the information using a computer or other equipment that is ordinarily available to the agency for retrieving or collating stored information, and
- producing a written document would not substantially and unreasonably divert the resources of the agency from its other operations (s17(2))

In *Collection Point Pty Ltd v Commissioner of Taxation* the full bench of the Federal Court decided that if a new computer program is required to be written to produce the document then a computer is not being used in a manner that is ordinarily available to the agency because an extraordinary step is required to be taken<sup>1</sup>.

The data you have requested is of a detail that cannot be reported on from the Department's computer systems. Either the data is not collected to that granular detail, or it is not possible to extract the data using a computer system in a manner that is ordinarily available to it.

I am satisfied that the Department is not able to produce a written document containing the information you seek in a discrete form using a computer or other equipment ordinarily available to it.

Having regard to your request and the types of document that may fall within the scope of your request I am satisfied that the searches conducted were extremely thorough and all reasonable steps have been taken to locate any document relevant to your request.

#### **5 Decision**

Section 24A of the FOI Act provides that the Department may refuse a request for access to a document if all reasonable steps have been taken to find the document and the Department is satisfied that the document does not exist.

I am satisfied that the Department has undertaken reasonable searches in relation to part 1(b) of your request and that no documents were in the possession of the Department on

- Release one document in full
