Thanks again Section 47F

We'd really like to use this later today to explain to the executive across government the benefits of the channel and get them onside.

In the past, they've been focused on the details in the prototypes we've shown them. Would it be possible to make a few amendments to the below to make sure we have the strongest possible screenshot to show them? Otherwise we may encounter some issues.

Can we please:

- Change the name to AusGov Coronavirus
- The coat of arms that is on the australia.gov.au site (I think it's white on a black background in the header of the site)

In terms of content, can we please use the below:

This is the Australian Government's WhatsApp channel for guidance and information on Australia's response to Coronavirus (COVID-19).

We treat your privacy on this channel seriously. To read about our privacy policy reply 99.

Hi Team,

We're just looking for a screenshot or mock-up of what the menu/intro screen might look like for the WhatsApp if possible in the next few hours please?

(The actual need is: We need to start showing to people what the Australian development looks beyond the WHO one, so we just need something that does that).

Call me if that's too vague!

Cheers,
