## **2 Authority to make decision**

I am an officer authorised under section 23 of the FOI Act to make decisions in respect of requests to access document or to amend or annotate records.

## **3 Relevant material**

In reaching my decision I referred to the following:

- the terms of your request
- the document relevant to the request
- the FOI Act
- Guidelines published by the Office of the Information Commissioner under section 93A of the FOI Act (the FOI Guidelines)
- advice from Departmental officers with responsibility for matters relating to the document to which you sought access

## **4 Document in scope of request**

The Department has consulted with the relevant area of the business in relation to the documents you have requested access to and finds no relevant document holdings.

### ***Searches***

The Department does not hold an existing discrete document that contains the data you are seeking.

The Department has considered whether it can extract this data in accordance with section 17(1) of the FOI Act.

The obligation for retrieving or collating information stored in a computer system arises if:

- the Department could produce a written document containing the information using a computer or other equipment that is ordinarily available to the agency for retrieving or collating stored information, and
- producing a written document would not substantially and unreasonably divert the resources of the agency from its other operations (s17(2))

In *Collection Point Pty Ltd v Commissioner of Taxation* the full bench of the Federal Court decided that if a new computer program is required to be written to produce the document then a computer is not being used in a manner that is ordinarily available to the agency because an extraordinary step is required to be taken<sup>1</sup>.

The Department's ordinary use of computer systems includes measures to produce regular reports on Student data; however the data you have requested is of a type that is not produced as part of this regular business reporting cycle.

To compile the information you have requested into a discrete document would require that additional and extraordinary measures be undertaken. This is not what section 17 of the FOI Act requires. Section 17 only requires a new document to be created when it is possible to do so using a computer or other equipment to extract data.

The data you have requested is of a detail that cannot be reported on from the Department's computer systems. Either the data is not collected to that level of detail, or it is not possible to extract the data using a computer system in a manner that is ordinarily available to it.

I am satisfied that the Department is not able to produce a written document containing the information you seek in your request in a discrete form using a computer or other equipment ordinarily available to it.

Having regard to your request and the types of document that may fall within the scope of your request I am satisfied that the searches conducted were extremely thorough and all reasonable steps have been taken to locate any document relevant to your request.

## **5 Decision**

Section 24A of the FOI Act provides that the Department may refuse a request for access to a document if all reasonable steps have been taken to find the document and the Department is satisfied that the document does not exist.

I am satisfied that the Department has undertaken reasonable searches in relation your request and that no documents were in the possession of the Department on 29 October 2021 when your FOI request was received. As such, I am refusing your request based on the application of section 24A of the FOI Act.

## **6 Legislation**

A copy of the FOI Act is available at <https://www.legislation.gov.au/Series/C2004A02562>. If you are unable to access the legislation through this website, please contact our office for a copy.
