**Explanation**

We believe strongly that there are several compelling reasons why Umadeekshith Nadesan should be granted an exemption to travel to Australia and visit Clare temporarily. We have been in a committed relationship since December 2015 and lived together since May 2018. The first and important compelling reason is, that Clare is suffering greatly due to the extended separation and resulted in mental health issues with feelings of isolation, anxiety and depression. Clare sees a counsellor regularly to help through this but living on my own and not seeing Umadeekshith for the past 10 months has been extremely challenging.

Secondly, is it imperative that Umadeekshith be granted temporary entry to Australia to visit Clare as we desperately would like to start a family and have a baby. Clare's OBGYN Dr Fiona Cowell (part of Monash IVF) has indicated it is important that we begin this immediately to ensure the greatest success.

**Assessed Exempt Lookup Initial Assessment Notes**

Client claims to be the immediate family member as spouse of an A/a citizen/PR. Evidence provided to demonstrate clients claim includes:

- Relationship Statements
- Identification Documents
- Travel Itineraries
- Bank Statement A/a citizen
- Money transfers - unverified

I acknowledge that the client claims to have been in a relationship with A/a citizen/PR since December 2015. I have considered the attached information and I am not satisfied that the client has provided information to support defacto relationship, such as evidence to suggest that the couple have established a joint household, share financial resources, or have any major joint commitments/responsibilities. Therefore, I am not satisfied that current policy requirements of Immediate Family are met.
