Australian Government
Department of Immigration and Citizenship

The figures below are the numbers of emails received from the Internet to the department's internal mail network. The information has been obtained from the monthly Management Summary reports on the operations of the Secure Gateway Services (SGS) provided by DIAC's external service provider, Unisys. Unisys took over operation of the SGS in September 2008, our previous service provider was not required to provide this level of detail, therefore statistics are only available from September 2008 onwards.
