Hi s22

As discussed, we have been liaising with s22 regarding FOI request LEX 27960. I have attached the signed Estimate Minute previously provided by s22 in relation to this matter.

The estimate details that there were 14737 PICs issued under section 208 for the period 1 June 2016 to 1 March 2017 inclusive.

The applicant has formally consulted with us under the FOI Act and has requested a 'breakdown' of categories for the certificates to assist him in formulating a revision of scope. Based on our discussions earlier, I understand that you can run a report that categorises PICs according to 'reasons' for release i.e. threat to health, life, or welfare etc.

Please run the report and respond via return email. Because we are subject to strict statutory timeframes, we would appreciate your prompt response.

Thank you for your assistance in this matter.

Hi s22

It has come to our attention when reviewing this matter, that the estimated figure originally provided (14737) was an over estimation, this figure appears to relate to all public interest releases (Centrelink, Medicare and Child Support) for the period.

Our records indicate that a total of 8194 Public Interest releases were performed under section 208(1)(a) of the *Social Security (Administration) Act 1999*, between the dates of 1 June 2016 to 1 March 2017 (inclusive).

Please find below, the breakdown of the Social Security Public Interest releases by the guideline under which the releases were authorised.

Enforcement of laws

Mr Warren replied to the 24AB Consultation notice via email requesting assistance to revise the scope of his request.

This evening the FOI Team will respond to that email correspondence – I note this may cause some social media activity.

It remains that Mr Warren has until 2 March to revise the scope of his request, which he has not yet done.

Dear Media

I refer to the FOI request below received from Justin Warren via Right To Know.

Today the FOI Legal Team will issue a consultation notice to Mr Warren on the basis that there is a 'practical refusal reason' in relation to this request on the basis that the documents Mr Warren seeks access to cannot reasonably be identified.

This will commence a 14 day consultation period wherein Mr Warren can revise the scope of his request in response to this notice.

If it is the case that Mr Warren responds to this notice and revises his request to the point where the documents he seeks access to can reasonably be identified, then processing will re-commence in relation to this request.

I note that this may generate some media activity. If you have any questions regarding this, I will be available until **1pm** today. Alternatively, A/g Senior Government Lawyer

I refer to the request below from Justin Warren via Right to Know.

On 26 February 2018 the Applicant revised the scope of his request to be for the following:

I alter the scope of my request to be for the first 63 procedures (regarding publication of operational blueprints) used in reverse chronological order from the date of my request (i.e. going backwards in time from the date of my request), or fewer if less than 63 procedures have been used.
